

Eddy Collado

Denver, CO | Phone : (954) 804-2372 | eddcollado@gmail.com

Front End Web Developer specializing in cross-platform development. With 4+ years of experience in the software industry. A creative and technically versatile front-end developer with a strong foundation in visual design and a passion for crafting engaging digital experiences. Known for bridging design and engineering through thoughtful collaboration and a user-first mindset. Experienced in building scalable front-end components, managing cross-functional design systems, and delivering projects in fast-paced Agile environments. Adept at navigating complex systems like Adobe Experience Manager (AEM) and Adobe Target, and at driving component consistency and audit strategies across global teams. Comfortable in both highly technical and creatively strategic conversations.

WORK EXPERIENCE

EchoStar (DISH) · Denver, Colorado · Full-time · On-Site
Engineer II - Software Engineer

Denver, Colorado
July 2025 – Present

- Developing and maintaining responsive, user-first web experiences using JavaScript, HTML5, and CSS3.
- Leading front-end enhancements for BoostMobile.com with a focus on speed, accessibility, and performance.
- Executing A/B testing and content personalization strategies with Adobe Target to drive conversion optimization.
- Collaborating cross-functionally with product, QA, and design teams to deliver clean, scalable solutions.
- Debugging and resolving client-side issues across devices and browsers to ensure high-quality UX.
- Contributing to a modern component-driven architecture while working within Agile sprints.
- Tech Stack: JavaScript, HTML5, CSS3, Adobe Target, Git, React, Next.js, Sass, AEM.

EchoStar (DISH) · Denver, Colorado · Full-time · On-Site
Senior Front-End Developer

Denver, Colorado
Jan 2024 – Jun 2025

- Designed and implemented reusable React components to support Boost Mobile's digital experience across desktop
- Partnered with UX and product teams to launch responsive, WCAG-compliant UI components aligned with business goals.
- Developed high-performance JavaScript utilities (MutationObservers) to manage dynamic DOM content in live environments, avoiding brittle selectors and race conditions.
- Conducted a full-scale audit of the Design System used across multiple brands, identifying gaps and proposing scalable solutions using Figma plugins (Design Lint, Instance Finder).
- Led conversations with the Digital Design System team to improve design-to-dev workflows, incorporating Code Connect and proposing GitHub integration to manage tokens and components.

- Regularly contributed to performance tracking and reporting using tools like Lighthouse and PageSpeed Insights, aligning improvements with OKRs.
- Collaborated with back-end developers, designers, and product owners to constantly improve the customer experience within our app.

OneTen-Creative (DISH) · Denver, Colorado · Full-time · Hybrid

Junior Front-End Developer

Denver, Colorado

Apr 2021 – Dec 2023

- Lead front end web developer building Ontechsmartservices utilizing Shopify Backend and Shogun Frontend.
- Implemented Greensock(GSAP) capabilities as well as building new components from scratch with HTML & CSS, leading to OnTechs first \$1,000,000 week in sales.
- Utilized Flashtalking platform to build DCOs using HTML, CSS & JavaScript. Implemented the Greensock(GSAP) Library for additional animation capabilities, providing eye popping animations to catch the users eye, all using Javascript.
- Utilized Wordpress in conjunction with the Divi theme to build the OneTen-Creative Agency Homepage and career site.

Terraslate · Denver, Colorado · Full-time · On-site

Production Manager/Graphic Design Specialist

Denver, Colorado
